

# Ventilador Cooler

## ■ Features

### Long Life

The San Ace 80L LG type has an expected life of 180,000 hours (approximately 20 years), 1.8 times that of our conventional long life fan,<sup>\*1</sup> making this fan ideal for equipment that must operate without maintenance for extended periods.

### High Air Flow and High Static Pressure

The maximum air flow of the San Ace 80L LG type is approximately 1.7 times and its maximum static pressure is approximately 3.5 times that of our conventional long life fan.<sup>\*1</sup>

### Low Power Consumption

The power consumption of this new fan is approximately 33% lower than that of our conventional long life fan.<sup>\*2</sup>

<sup>\*1</sup> Specification of Model No. 9LG0812P4J001. Our conventional long life fan is 80 x 80 x 25 mm "San Ace 80L", Model No. 109L0812S401.

<sup>\*2</sup> Specification of Model No. 9LG0812P4H001. When air flow and static pressure performance is almost identical. Our conventional long life fan is 80 x 80 x 25 mm "San Ace 80L", Model No. 109L0812H401.
